What is the general proportion of labor to material in road making & repairs?

8/10/93

Cost of labor and materials in regard to road-making and drain and road repairs in petty Municipalities; but without giving the required information he states that "as materials are not collected by the Kamatis their cost is wholly debitable to labor."

Requests that the required information may be furnished.

The marginal list shows the sanctioned provision ~~for petty works~~ made in the budget for 1893-4 for the kinds of petty works in question and the cost of the proposed Kamati establishment. In the case, for instance, of Sulebele and Channapatna, if the Kamatis themselves do not bring the required quantity of earth and gravel to puts Cans filled, &c., as the whole of the provision would be ~~taken by the Kamatis~~ paid to them as pay. Requests to be informed how much of the sanctioned provision approximately represents the cost of ~~labor and~~ materials and how much of ~~labor~~ represents labor in ~~making or repairing roads &c.~~ utilizing them on the roads, &c.

1). In G.P. 14990-1 / L.F. 132-93 dy 18-3-95, Govt were of opinion that a Kannati establishment was not necessary, and that for petty & unforeseen works the grant under "reserve" may be utilized whenever absolutely necessary. And in Municipalities where Kaiyam Kannatis or Khalihats were employed they directed their inclusion in the "Sweepers" establishment (G.P. 18615-22 / L.F. 132-93 dy 29-4-95).

It is to this that the Bangalore Dy Comm^r takes exception, on the grounds that there is nothing in common between the work of Kannatis and of Sweepers, and that ~~labourers~~ labourers who would be ready to do the work under one designation would be disinclined under the other. These maybe sentimental objections, but appear at the same time to be practical. It is, moreover, hard to see what advantage has been gained by doing away with the name, while retaining the men.

2) The Dy Comm^r again requests sanction for an expenditure of Rs 710-10-6 incurred during the years 93-94, 94-95 & 95-96 in the Municipalities of the Dt., on account of Kannatis. No additional information has been furnished, except that the expenditure "was proposed to be met from provisions under Roads, repairs & drains. As no further inform^n is likely to be obtained, the amount may be sanctioned, and the Dy Comm^r asked to bring out the saving in the current year's Budget.

Sir,

I have the honor to solicit sanction to the entertainment of permanent Kamati Establishment, as per margin for the execution of petty works, such as patch work on roads, clearance of stone drains, filling up of ruts and pits in streets, earth work on side drains, &c., in the Municipal Towns of the District. These works are of daily occurrence and are not sufficiently remunerative to attract contractors. The Kamati system has been tried in some places and found to be cheaper and more satisfactory.

2. I consulted the Vice

Vice Presidents of the Mu-
-nicipal Boards in the District,
vide copy of my Circular No. 651
dated 6th June 1893, herein enclosed
and all of them agree to the
proposal.

3. The cost will be met from
the provision for repairs of roads
and drains in the Budget of the
current year.

Circular No. 651

There has been a general laxity in the matter of works in Municipalities and some Amaldars complain of difficulty in getting contractors. One or two Amaldars seem to think that the employment of Kamaties will be cheaper and more satisfactory. Kamaties are cheaper when they are properly worked. Their work depends on the active interest which the Amaldar takes and all Amaldars do not take same interest. The present state however is extremely unsatisfactory, Something must be done. The best course seems to me to get a permanent contractor for each municipality to do all works of the following kinds.
Construction and repairs of buildings and latrines

Construction of walls, bathing
steps &c.
Construction and resetting of
stone drains.
Construction and recoating
of roads.
Construction of lamp-posts.
Construction of any other work.
Then have a man and one
or two boys or women or if the
Municipality is large like
Chennapatna a slightly
larger number as permanent
Kamatics and get them to do
all Kinds of petty work such
as patch work on roads, ~
clearance of stone drains,
Earthwork on side drains,
filling up of ruts and pits
in Streets etc.- Such Amaldars
as agree in the above opinion
should send up definite pro-
posals before the 20th Instant

so that the scheme may be worked from the 1st July. Those who do not agree should make their own suggestions within the 15th -

on which these Kamátiás are generally employed. It is not possible exactly to check and value the work done by them. They are something more than ordinary sweepers. To estimate and sanction every piece of such work as is being done by these people daily, would be extremely inconvenient and difficult, but it may be observed that these services are necessary and that useful work is being done by them. Since, however, the employment of permanent Kamatias is considered unnecessary by Government and since a similar establishment is not maintained in the other Municipalities of the District, the undersigned begs to propose that

that the designation of these two servants be changed to Sweepers whose number will thus be increased from 16 to 18.

Submitted for orders.

In the Precedents' proposal to appoint permanent Kamatis, the he was requested to report approximately how much of the provisions under roads and drains represents labor and how much materials. He now says that the system of charging the cost to different works was found inconvenient & separate provision was made in the Budget for Public works.

It was ordered recently that Kamatis, wherever they exist, must be done away with. Why the ~~reference~~ Precedent be referred to the order Dy 2914 & 15 dtd 18615-22 / L.F.132-93 and sanction refused

See the order of 1/3/94 on the file below and applies to municipalities in the Bangalore Dist & not other headquarters parts

Roads original and repairs 75 per cent of the cost may be taken to represent labor and the balance materials.

2 As the system of charging the cost of Canalies to different works was found inconvenient, separate provision for them was made under VIII Public works in the current year's Budget.

The working of the Bridges Rules 4 is defective. It is already a matter of complaint that the Executive Officers do not realise that the Municipality is due 4 the Surveyor's Office Permit before the commencement of the work. This the Municipality is entitled to be the result. This the Municipality is entitled to a fuller & more efficient working. It would be well that — if the Executive Officers realise that the Municipality is due 4 the Surveyor's Office Permit before the commencement of the work.

No. 33.

The Government Proceedings No. 21245 dated 28th May last, L.T. 132-93 amend the employment of Kayam Kamatis.

Adverting to the above, has the honor to state that no Kamatis are now kept in any of the Minor Municipalities in the District. Their Services have been dispensed with since no provision was sanctioned in the last year's Municipal Budget, and it is requested that the Comptroller may be authorized to pass the expenditure incurred on this account.

2. As regards the proposal of the Chittledroog Deputy Commissioner to include

The expenditure incurred by the Bangalore municipality may be passed. As the Govt order No. 23/5/95 No. 21245 132-93 has abolished Kamatis everywhere, the system described by the order may continue for a year more with liberty at the end of 95-96 to the Dy Commrs to recommend their revival should they find sufficient reason to do so on the score of economy and efficiency. The change of name to 'sweepers' might be discussed & need not be introduced now.

Under Sec. to Govt 15/7

Since there are no Kamatis now in the Minor Municipalities, there seems to be no necessity to change the designation

The D.C. could also say how much has been spent, so that he wants sanction. Certain. 15/7

the Ramaties under the head "Sweepers," the Under-signed submits that the arrangement will not be popular. The nature of the Ramaties work is quite different and does not appertain to "Conservancy." Further, the ordinary Sudra laborers may not come forward to take up the appointment of Sweepers, which is held by Vaddars and other "depressed" caste people.
